

VPN

Is it possible to access the Shelly components via VPN?

Whether you can access your Shelly **via VPN** depends on which utility you want to access.

As of today (12.09.2019) it looks like this:

- via **browser** you can access the UI.
- via **Shelly APP** you can access Shelly, which are assigned to the cloud. Devices in "local" mode can not be addressed.
- via **ShellyHome app**, the devices are fully accessible, so even in "local" mode
