

# HTTP-Request Shelly GAS

HTTP-Request Shelly GAS

## HTTP-Request with Original-Firmware:

Enter in the address bar of the browser:

- Start [Shelly GAS](#) sensor self-test:

Code

```
http://192.168.xxx.xxx/self_test
```

- Mute active [Shelly GAS](#) alarm:

Code

```
http://192.168.xxx.xxx/mute
```

If an **authorization** is required: for example:

- Start [Shelly GAS](#) sensor self-test:

Code

```
http://user:pass@192.168.xxx.xxx/self_test
```

- **user:** user name to adjust
- **pass:** password to adjust
